Highlight it using bold characters and/or all caps.Go to File, go Save As Template.Writing your template is easy as long as you have an updated version of any MSOffice application. More particularly, you have the working knowledge of how you would do it. General FAQA contract is basically a legally enforceable agreement that is written, witnessed, signed and sealed by the parties involved. It lists the roles and obligations to be followed by the parties.The following are the important parts of a contract:OfferAcceptanceConsiderationMeeting of MindsCompetence and Capacity Legality The purpose behind entering into a contract is to create a contractual relationship between two or more parties who would like to enter into an agreement. It establishes the rights and responsibilities of the parties and protects them legally.The tends to be void if the information contained in the contract is false and if the contractual terms cannot be complied with. Other than that, if there's a and if the purpose of the agreement is illegal, the contract becomes null and void. A well-drafted contract provides clarity in the commercial relations, agreements and rights of the parties. It avoids potential contractual disputes, protects intellectual property, real property and helps to better manage business relationships. relationships.
